Intro:

Just just just gone girl, you out of this world
Just just just gone girl, you out of this world

Verse1:

Gone slide to the dancefloor this is your jam
Chick rocking neon kicks got a nigga like damn
I like to see you in stilettoes, but I wonder your bio
This for my flo-ri-dians girls all the way to ohio
What planet are you from who manufacturers your kind
You da baddest in the building protege of this time
Make a nigga double take gone and press rewind
Supermodel of the future outshining all them swines
You take me to the next level like an escalator
You cute when you mad push yo buttons like an
elevator
I done lock they numbers in but you out of this world
Hips like tyra banks, but with naomi the curls
You like candy call me enimen my love unfurls
I'm superman superhuman strength out this world
You said want a real man that can treat you like a lady
Here go your treat just left the dealership with a
mercedes

Chorus:

Just, just go girl (2x's)
You out of this world (2x's)
Just, just go girl (2x's)
You out of this world (2x's)

Verse2:

Other girls so outdated but with you iphones
Tuning in-to my calls when you at home all alone
You just a classy honey don't have time for the crap
Other girls just so trashy nicki beez in the trap
She like everything about me cause my swag is on
deck
Other niggaz played out like vhs cassettes
And don't worry bout the money cause to her I'm the
check
These niggaz chickens intimidated so I just let em peck
I like a girl with lots of brains esteem up and content

Yeah she serious but can get crazy fifth element
Always keep her feet done so I pay for her rent
What gala ta ga lience from what place she was sent
She got me spaced out like a human with autism
Got a whole lot of knowledge a whole lot of wisdom
Understand me at all angles so I call her a prism
When it's time to drop a track tell me baby just hit em

Chorus: (2x's)
Just, just go girl (2x's)
You out of this world (2x's)
Just, just go girl (2x's)
You out of this world (2x's)
