Avias 2012

Verse1:

When I first met you I had my guard up
Let it down cause nowadays you have a nigga real
stuck
The more you hang around a person it's like you come
to know em
Introduce em to your world cause you got stuff to show
em
It's something like a hint but it's revealing a crush
You ask do I want to know uh uh I like the rush
And if you ask me I'll be like no no no no
I don't want to know cause I like the suspense
Flirting here flirting there throwing out many hints
But what if I was face with choice revealing the answer
Butterflies in my stomach not knowing the outcome
Just gone and push all up on me tickle my fancy
Then maybe I'll find a solution somewhere I want your
hands to be
You got me puzzled but you put together your game
Shhh! don't tell your secret cause things wont be the
same

Chorus:

You giving me these signs baby
You losing again

Verse2:

Surprise this that new avias
Feature presentation yo I mean the latest
You are like a riddle I'm just trying to figure you out
Acting different from the words you be proposing out
your mouth
Thoughts playing in our heads of how much we want
each other
I know you calling me a friend but I can be yo lover
Lick me, kiss me, hold me, touch me, put me in yo
fantasys
Tempt me, insist me, yo don't rush me, somewhere I
want your hands to be

This a new day and age like zephyrhills out a faucet
Don't keep hiding your feelings come on up out of
closet
But you don't know my reaction you feeling intimidated
Maybe we can establish something get you so sedated
So I can handle the truth now what do you want to tell
me
A fire burning for me so deeply that you can't help it
Let me know the real deal these signs just aint
confirming
Everytime I come around I have you shy and just
squirming

Chorus:
You giving me these signs baby
You losing again

Yep you losing again!
What's that you said you give in
Hold on wait this getting too good
So what you telling me you feeling ya boy
I knew it you liked me the whole time
But I don't know well I think I like you too
