Verse1:

Right now I stand conciously my bodies alive
Others blind to the world but I'm like einstein
Every min every sec is a valuable phase
And I will never forgive myself if I can't see your face
Everyone got a spirit we aint made of plaster
Judged by our works, I gotta get in friendly ghost
casper
You deserve all my worship from at night to the dawn
We were meant to be you sent down your only begotten
son

Chorus:

My soul my soul belongs to you
No matter what the critics say or the industry do
My soul my soul belongs to you
I worship night and day praying helps me get through
to you
My soul my soul belongs to you
The bible told me so you watch everything I do
My soul my soul belongs to you
When it's all said and done living in heaven with you

Verse2:

Now I done heard many rumors of the ill-uminati
But yo it's better ways to cop a mazaradi
Deep within lives a honest soul in a sinful body
Is it worth going to hell for money and a hottie
I see a brighter future with our god the omniscient
Jehovah jireh, the almighty, alpha omega of living
So I turn away from my sins tell the devil I'm gone
Neon crosses around my neck worshiping him in grand
thrones

Chorus:

My soul my soul belongs to you
No matter what the critics say or the industry do
My soul my soul belongs to you
I worship night and day praying helps me get through
to you
My soul my soul belongs to you

The bible told me so you watch everything I do
My soul my soul belongs to you
When it's all said and done living in heaven with you

Verse3:

I love you so much
You make me happy
I need you night and day
Right beside me
I don't care what others do in this world of chaos
If you aint living by the book then you don't know the
cross
I consider sinful doers in the world of the lost
They laughing now but in the end its, their, soul, it, cost

Chorus: (2x's)

My soul my soul belongs to you
No matter what the critics say or the industry do
My soul my soul belongs to you
I worship night and day praying helps me get through
to you
My soul my soul belongs to you
The bible told me so you watch everything I do
My soul my soul belongs to you
When it's all said and done living in heaven with you
