Verse1:

When you're around my spirit feels so good
Everything is then peaceful everything understood
You take me places in happiness I never knew I could
Feeling so overjoyed question my feelings I should
But I can't get used to this feeling the darkness coming
soon

Wish it would leave, I hate the feeling of doom
It repeats itself over like a record gloom
First happiness then sad then happiness boom

Chorus:

I feel so bad there's no luck when you are around
Everything joy built up your negative energy took no
time breaking down
Depression is the only friend and fear, here, is the king
with the crown
A twisted world where damned lives and every
beautiful smile fades into a
Frown

Verse2:

Then the darkness go away like it was just a dream
The light shines and things aren't bad like they seem
Back to happiness and joy inside my soul bliss beams
So much excitement enough to make your flesh
squeam
But I can't get used to this feeling the darkness coming
soon

Wish it would leave, I hate the feeling of doom
It repeats itself over like a record gloom
First happiness then sad then happiness boom

Chorus:

I feel so bad there's no luck when you are around
Everything joy built up your negative energy took no
time breaking down
Depression is the only friend and fear, here, is the king
with the crown
A twisted world where damned lives and every
beautiful smile fades into a

Frown
