Daddy come bring the pain let me suck your sugar
cane
I got hella fame. I gets hella bread.
I got a secret name. they call me super head
I got the fucking power. to make your man holla.
Hoe why you looking sour. come give this hoe a dolla.
I can make my ass talk. and make my pussy pop.
You can see it in my walk. I'm heading for the top.
So fuck all you fakers. and all you procrastinators.
And all you fucking haters the queen will see you later
kookee!

Chorus: "Get Down"

Yall niggaz will agree with me to
Need a chick that will do what it do
Go down make a nigga feel trill
Good sex loving feeling so real
Ass sticking out the one back shot
We still fucking um sleepy I forgot
Stick with ya girl you all a nigga got
Face down ass up now thas hott

Second verse: Avias

I blaze firey heat. like my lyrics ripping on this beat
I just copped a brand new chick. name kookee she fye
that's it
Nothing more that I need in my life. she fly a nigga
thinking about a wife
Big piece that I stumble out the shower. um mins
niggaz paid by the hour
More swag more dick for the chicks. more fame just
living life a bliss
If you with me then be cool I insist. if you aint then you
gladly been dismiss
Kookee girl I hear you talk a good game. can you back
it up on my like the same
All I want is your sexy ass frame. if you want more then
here go my last name
All it take is the words out your mouth. pussy fye I
wanna see what you about
Can you handle then boys from down south. but you
nice so that I wont doubt
Chorus: "Get Down"
Yall niggaz will agree with me to

Need a chick that will do what it do
Go down make a nigga feel trill
Good sex loving feeling so real
Ass sticking out the one back shot
We still fucking um sleepy I forgot
Stick with ya girl you all a nigga got
Face down ass up now thas hott
Third verse: Avias
Now as I spit this last verse I want to prove. a point that
this shit a nigga rule
No stepping outta line cause you in. no giving you
mercy I aint ya friend
Now girl step in line cause you next. like trey said I
invented sex
Giving you this piece all night long. freaking you until
the fucking break of dawn
I walk around cause my reputation high. girls fantasize
and be wondering why
But step to me girl and you um gonna try. then you'll
see it will end with a sigh
Cause you wont me to make it rain. like a... fucking
hurricane
Throwing stacks that's a nigga middle name. heres the
board now girl you host the game
You better be warned that I pack a twelve. with this dick
girl you gone wont to yell
Cause I aint hosting chicks for bail. got pc I send a
picture hope it's dell
Chorus: "Get Down"
Yall niggaz will agree with me to
Need a chick that will do what it do
Go down make a nigga feel trill
Good sex loving feeling so real
Ass sticking out the one back shot
We still fucking um sleepy I forgot
Stick with ya girl you all a nigga got
Face down ass up now thas hott
