Chorus: saw you at the club by the bar drinking up
Caught my eye like an owl for a grub
Better approach now cause my time is almost up
Don't leave yo glass slipper don't leave a nigga stuck
If I had two coins rub them to-gether for luck
To the next level have you push my hummer truck
Yeah you need me on your team cause I know yo
boyfriend suck
Got my heart on cloud nine I can see me in a tux

Verse1: I never knew love no never at first sight
From the moment we layed eyes I knew you were the
right
One to keep me going through life feel that insight
And you so sharp girl like a pin better yet knife
I know you real classy I understand yo price
If you give me a chance girl alaska on ice
Don't answer yo celly it's yo friendS right
Today is our day you'll get back with them tonight
Uma smooth loyal dude no matter my profile
And yo friends don't like me but in me you see yo child
The more we hang I love you we pushing to new levels
Yes we had a rough start but the end always settles
From the beach... to the streets... no matter we make it
deep
And I got cash with aint nothing never cheap
If you really feeling me then prove to the world
That you only you are my one and only girl

Chorus: saw you at the club by the bar drinking up
Caught my eye like an owl for a grub
Better approach now cause my time is almost up
Don't leave yo glass slipper don't leave a nigga stuck
If I had two coins rub them to-gether for luck
To the next level have you push my hummer truck
Yeah you need me on your team cause I know yo
boyfriend suck
Got my heart on cloud nine I can see me in a tux

Verse2: like a ruby no better yet you like a diamond
Like a dog better yet some like mans best friend all-
time

Anything you want you got even if it's not all mine
Renting out the whole hotel money high I'm on the
grind
Never put restraint on you cause I feel you trustworthy
Even trust you round my friends hummer to the crib in
a hurry
Never had them cross me once except that dude you
know maury
Sealed his fate ready for doom so his body was buried
I love my girl it's something I don't share something
like an addiction
If she feeling really nasty only my video vixen
Yall I aint tripping... never flipping... she some like a
dove
Yes I told my fanz I was threw but she brought back out
love
And this something really new like a kiss and a hug
Undercovers where I found her so I'm bout to tear it up
It's so extravagant I found you never thought it
wouldn't but it was
It's amazing we originated from one simple nightclub

Chorus (2X's) saw you at the club by the bar drinking up
Caught my eye like an owl for a grub
Better approach now cause my time is almost up
Don't leave yo glass slipper don't leave a nigga stuck
If I had two coins rub them to-gether for luck
To the next level have you push my hummer truck
Yeah you need me on your team cause I know yo
boyfriend suck
Got my heart on cloud nine I can see me in a tux
