Verse 1

Now shake it to the floor
Dancing adrenaline now you wanting more
Don't sit down time to grab another drink
Super sonic blast and we partying all night

I saw you when you first came in
Now it's time for me to begin
I like the way you dress
I want your sweet caress
I want your glass of gin
I want your body in the end
I want your amazing style
I want your sex now
I want your artful face
I want your money case
I want your attitude
I am on your latitude
Please show me gratitude
