Chorus: you can never " I mean never ever ever" No never "ever ever ever ever"

Be me cause um to sophisticated for ones. trying to understand me get your brains in the sun

You can never " I mean never ever ever" No never "ever ever ever ever"

Be me cause um to sophisticated for ones. trying to understand me get your brains in the sun

Verse1: uma fly ass nigga and that's always how it's been

Never want what a nigga got never needing a friend
Just cool and layed back focus money getting stacks
Looking for my next glack to knock off all these wacks
I wake up in the morn and styling so fresh
Throw on the dog tag and the beater on my chest
No I can never rest cause my name stand the best
It be me avias seay why the people so obsessed
Making sure I stay fly on ever seen yesirr
It be me the next president of americer
No pain I can't endure no miracle no sir
I'm just your ordinary dude coats with the fir
I love having fame and avias is the name
If you hate I bring the pain like fires to a flame
Never out looking lame rocking watches and my rings
Yall niggaz cannot be me so don't attempt to change

Chorus: you can never " I mean never ever ever" No never "ever ever ever ever"

Be me cause um to sophisticated for ones. trying to understand me get your brains in the sun

You can never " I mean never ever ever" No never "ever ever ever ever"

Be me cause um to sophisticated for ones. trying to understand me get your brains in the sun

Verse2: now I have seen niggaz that try to stay fly
When it's rent money due and they need to get by
I just sigh cause it's hard trying to keep up with the coupe
When you aint got no cash and nigga looking souped
My swagger is terrific you can never be me

So please don't attempt cause then I got to sieze
Yall niggaz got me itching like a dog with fleas
And um ready to bring on a new trinity
Loving my chuck taylors and my tims
Never floss broke windows and rims
That's why I say you can never ever ever
No never ever ever ever be me
Cause um way to fly
Trying to keep up with me nigga you bound to die
Hating on me is a sin and this is not where I begin
So you need to stop pretending like you in it to win

Chorus: you can never " I mean never ever ever" No
never "ever ever ever ever"
Be me cause um to sophisticated for ones. trying to
understand me get your brains in the sun
You can never " I mean never ever ever" No never
"ever ever ever ever"
Be me cause um to sophisticated for ones. trying to
understand me get your brains in the sun

Chorus: you can never " I mean never ever ever" No
never "ever ever ever ever"
Be me cause um to sophisticated for ones. trying to
understand me get your brains in the sun
You can never " I mean never ever ever" No never
"ever ever ever ever"
Be me cause um to sophisticated for ones. trying to
understand me get your brains in the sun
