It's gonna take awhile
We'll see how things will go in time
How you surprised me, I... I think
It's gonna be a long ride

Refrain:

Another one of those days
When I'm sitting numb and hopeless
But when my ship comes in
I'm gonna get away from this

Chorus:

Sailin' far away and never coming back
I'll take me far away
And I'm never coming back

Forgetting you is easy
You're not that much to think about really
I'm sailing me away
Stuck inside and there's no way out
Save me

(Repeat Refrain and Chorus)

Bridge:

(Scream)
Why! Are you trying to deny...
What you've feeling inside
Trying to get away
Why couldn't you just say?

(Repeat Refrain and Chorus)

Sailin' far away
Yeah...
I'll take me far away
Never coming back
