Chasing away the time
It takes to feel alive,
And only we'll know.

And I could be far away,
But it still feels the same,
And only we'll know

Look to the sky,
And the dreams you want
Aren't far behind the feeling.
Look to the sky,
And the dreams you want
Aren't far behind the feeling.

The trouble with here and now
Is finding when and how.
We learn the hard way.

Look to the sky,
And the dreams you want
Aren't far behind the feeling.
Look to the sky,
And the dreams you want
Aren't far behind the feeling.

Every thing's changing now,
Ooh, and every thing's changing now.

Look to the sky,
And the dreams you want
Aren't far behind the feeling.
Look to the sky,
And the dreams you want
Aren't far behind the feeling.

And only we'll know.
