The last time that I saw you
Will be the last time that I have to
Thanks to the miles between us
Cos' I've made your exit cleaner
To keep you here would hurt us both
I'm done with attempts to keep you close

Sure, you're a clever boy
But you've got growing up to do
I hope you plan on me sticking around
Long enough to watch you

And the crowd here, do not worry
This isn't the worst that you've put me through
You've thrown me so much lower
Than this before

My better judgment has always worked out
It's not on my favor this time around
I'd be good to keep my mouth shut
You make it hard not to push and shove
I've wasted things on you
You know it's true
But I'm determined keep you

Sure, you're a clever boy
But you've got growing up to do
I hope you plan on me sticking around
Long enough to watch you

And the crowd here, do not worry
This isn't the worst that you've put me through
You've thrown me so much lower
Than this before

And I'll be sure
To keep quiet
The next time we
Get the chance to

Sure, you're a clever boy
But you've got growing up to do

I hope you plan on me sticking around
Long enough to watch you

And the crowd here do not worry
This isn't the worst that you've put me through
You've thrown me so much lower
Than this before

Sure, you're a clever boy
But you've got growing up to do
I hope you plan on me sticking around
Long enough to watch you.
