She leads me to the bathroom stall
Friends are waiting down the hall
She takes my hand she won't let go
Feels so lonely and so cold
So cold, so lonely, and so cold

Got so many things to try
By the birrors getting by
Some will say that it kills
Pain or pleasure pop the pills
So cold, so lonely and so cold

Take cover, Take cover, Torture Chamber, Lover
Take cover, Take cover, Torture Chamber, it's cold

Got so many bills to pay
Baby still wants to play
Friends are waiting in the car
I don't think we're gonna get that far
So Cold, so lonely and so cold

Feel so lonely i could fly, Write a new sky
But she don't want to try
I feel so empty, we should land
I'm just another man, she leans on to stand

Sitting in the bathroom stall
She's got eyes like a doll
She was raised in the malls
Downtown she'll learn to fall
So cold, so lonely and so cold
