I don't think that you're a columbine  
You gotta face the problem, yeah  
We didn't climb all the way up to the top to hit rock  
bottom, yeah, yeah, yeah  
And your life has changed not for better not for worse  
Get it rearranged, don't you fall back under curse

Chorus

Carry on and on you know it won't be wrong  
Come on let's match that flash on the awn and change  
the season  
Carry on and on you know this ain't no swan song

Don't look at me with those eyes  
You'll always be a natural wonder, yeah  
I split my mind and internalize  
You deserve to have it so much better  
God breaks of ideas but no change in your purse  
This is no big deal we don't wanna be reimbursed

Chorus

Can you here the bells chime  
Can't you tell it's the right time

Chorus

Ain't no swan song  
Ain't no swan song

Carry on and on and on and on and on
