Like a shadow in the night  
Looking for the morning light, to appear  
With the sunrise comes the beast  
Spreading pestilence and death  
The dragon feasts

With the moonlight comes the fear  
Waiting for the enemy to appear  
A thousand evils we will face  
We will see them die in their disgrace

[Chorus:]  
The dragon flies  
Spreading flies  
Spreading the wings  
That terrorize  
He Breaths the fire  
Burning the lies from their eyes

With the sun light comes the peace  
Warriors of the light have killed the beast  
One more battle now is won  
The fight for mankind has just began

[Chorus]

[Solo]

Like a shadow in the night  
Looking for the morning light, to appear  
With the sunrise comes the beast  
Spreading pestilence and death  
The dragon feasts

With the moonlight comes the fear  
Waiting for the enemy to appear  
A thousand evils we will face  
We will see them die in their disgrace

[Chorus]

The warrior prince flies  
Shining his sword, he shines blue fire  
The dragon flies  
Burning the lies from their eyes
