There was nothing to say
the day she left
just filled a suitcase full of regrets
I held a taxi in the rain
looking for someplace to ease the pain

Then like an answered prayer
I turned around and found u there
you really know where to start
fixing a broken heart
you really know what to do
your emotional tools can cure any fool
whose dreams have fallen apart
fixing a broken heart

Now I don't understand what I'm going through
there must be a plan that lead me to you
because the hurt just disappears
in every moment that you are near

Just like an answered prayer
you made the loneliness easy to bear
You really know where to start
fixing my broken heart
you really know what to do
your emotional tools can cure any fool
whose dreams have fallen apart
fixing a broken heart

Surely the wind will stop falling baby
and I'll forget the past
'cause here we are at last
you really know where to start
fixing a broken heart
you really know what to do
your emotional tools can cure any fool
whose dreams have fallen apart

Fixing a broken heart... fixing a broken heart
