forget you, you won't make it to college.
you don't have any knowledge
because you're not that smart
forget you because you forgot me
but you can't stop me
i'm a freakin work of art.

forget you, you won't make it to college.
you don't have any knowledge
and i'm smarter than you
seriously does my class even know i existed
do they know i got hitlisted on mobsters
no no no no they don't
because they don't care
that's why they won't make it anywhere

forget you, you won't make it to college
you won't make it to college
but i will.

so guess what you won't a have a diploma
go watch Mamma Roma
from 1962
and i will forget you
you're done.
