america  
isn't just the melting pot  
you'll also find r&r  
disneyland baseball and star wars  
times of despair times of hope  
one builds another destroys  
life's passing governments tall  
pete's hands are getting old

from alaska to mexico  
it sure looks different man  
but it's all America

in the sound of the streets  
in the mines on the farms  
pete's hands are not strong anymore  
sixty years they re tighten for the boss  
and somewhere in distant illinois  
a gravestone stands  
an empty coffin waiting for pete  
to come well whenever

from alaska to mexico  
it sure looks different man  
but it's all america

and when he falls asleep  
and never wakes again  
the only thing he really wants  
isn't bliss in paradise  
but the dawning gold of the holy country

from alaska to mexico  
it sure looks different man  
but it's all America
