rainy grey day in holland  
and  
what about pretty girls  
please  
don't put your fingers on my face  
why do you ask me  
did she love you  
i'm just second hand now  
that was only bad luck  
yesterday  
such a different faith  
such a different glory  
don't put your fingers on my face  
different faith  
different glory  
i'm just bad luck passing in from  
yesterday

(thinking that i can do everything  
i don't do anything  
of course  
there're no reasons for concern  
except  
thinking that i'm not doing anything  
maybe i'm mistaken)  
and please  
don't put your fingers on my face  
and get out  
get out of here this is the rats year and figures move  
quickly  
yesterday was here

rainy grey day in holland  
and  
what about pretty girls  
please  
don't put your fingers on my face
