"Right Now"

Visit "[Right Now](#)" on MotoLyrics.com

everybody wants to be happy
but no one gets it right
actually
how can you search for that happiness
while you're alive
you may give me pleasure baby
but not your thoughts
you may house my secret place
but not my soul

anyway i love you
i love you so bad

even while the nights sleeps we travel
and not in vain i'll try
to send you just a part of my passion
right now

and then you can take all your lovers
baby
and screw them all
you may hold my secret place
but not my soul

anyway i love you
i love you so bad
