pity the fool  
it's hard but he broke a rule  
and that isn't done somehow someday  
brother will use a gun  
just walking the tawn  
just pointing it sad  
it's bringing me down  
it's driving me mad  
woman is away from me  
we will be strong  
I know we have the strength to carry on  
(we have the strength)  
I know my rights from wrong  
(I know my rights)  
I know you've lost I've won  
we will be stronger  
(we will be strong)  
and getting stronger every day  
believe me when I say it  
there is no other way to convey it  
no other way you clown  
your thoughtlessness has brought us down  
and that isn't right  
that we should walk alone on the streets at night  
just checking the time  
wolving that very fine line  
the humour is black  
the plan is attack  
woman is away from me  
down on your luck  
the shock it has struck  
the weak ones will die  
the questions are why why  
does anybody hear  
does anybody understand  
let me make it clear  
now's the time to take a stand  
now woman is away from me
