Let's take the stars out for a ride tonight,
just you and me, whoa it feels so right.
Imagine flying at the speed of light.
I can see us now, we'll be out of sight.

CHORUS:

Just close your eyes
and we're way up high beyond the sky.
Where no rules apply
'cause we're far from home, we're on our own.
Just close your eyes and we'll be there.
Apart from all the world.
Just close your eyes with all your might.
And make your wish tonight.

How 'bout dancing on the moon tonight,
Just close your eyes, if you think you might.
Just you and me under stars abright,
Viewing all the world, what a lovely sight.

CHORUS:

Just close your eyes
and we'll blindly stare, without a care.
Where no rules apply
'cause we're far from home, we're on our own.
Just close your eyes and we'll be there.
Apart from all the world.
Just close your eyes with all your might.
And make your wish tonight.
