Yeah, I ain't got a care in the world tonight  
We ain't really worried about nothing  
Had a long day, all day all my life, I've been waiting for  
this moment  
So I gotta live it up, live it up, live it up  
Live it up, live it up, live it up

Ok, bitch what's happening,  
Heard your boyfriend shaped like plastic  
We in the same demographic  
You know I gotta do it jurassic  
Now, toast to the young and the reckless  
No drama like the young and restless  
Thank god then I roll up breakfast  
Fat boy roll a second  
Hello, good night,  
Might, tip her if she look right  
Just keep on dancing, money talking  
I keep on rambling  
Elephant in the room I'm aimin'  
I'ma take my chances, go hard or go home  
It could just be to patron but

Yeah, I ain't got a care in the world tonight  
We ain't really worried about nothing  
Had a long day, all day all my life, I've been waiting for  
this moment  
So I gotta live it up, live it up, live it up  
Live it up, live it up, live it up

Living it up, see me shaded up in the cut  
Women with us with a little something in my cup  
Not giving a fuck, you remember us  
Yeah we looking different huh  
Cause our digits are super chick  
Hello racks, what I'ma do with these  
Spend it all on fast cars, clothes and jewelry  
I'ma do it like I do my trees blue  
She foolish if she asking... like 2 or 3  
But everybody who knows what's up, they know what's  
up

They see that... and they know it's us  
We toast it, for our success,  
So pour a cup and put it up for the og's  
Who did it before us  
For all the all homies who passed that be getting this  
cake  
And every inhale I take say I did it for name  
Life is too short so every day, we celebrate like it's our  
last day

Yeah, I ain't got a care in the world tonight  
We ain't really worried about nothing  
Had a long day, all day all my life, I've been waiting for  
this moment  
Had a long day, all day all my life, I've been waiting for  
this moment  
So I gotta live it up, live it up, live it up  
Live it up, live it up, live it up

Yeah, like it ain't no tomorrow  
I'm just trying to forget my sorrow  
Stand on the waist with my hand on the bottle  
Till I'm dream or die is the motto  
Up all night no sleep till the morning  
Really wish I could seize this moment  
Hi to the haters, greet my opponents  
If you ain't already know this

I ain't got a care in the world tonight  
We ain't really worried about nothing  
Had a long day, all day all my life, I've been waiting for  
this moment  
So I gotta live it up, live it up, live it up  
Live it up, live it up, live it up
