Went into the GNC  
Told them what was wrong with me  
I thought that they might have a cure  
They said, see your doctor

The doctor said, it's plain to see  
You suffer a deficiency  
The problem is, son, I can't fill  
The prescription for your I'll

[CHORUS]

He said, if you could buy  
I'm sure they'd sell Vitamin L  
If you could buy  
I'm sure they'd sell Vitamin L

Vitamin L  
It makes all things well  
Vitamin L  
It makes all things well  
Vitamin L

Then proceeded to describe  
This vitamin he can't prescribe  
A chemical reaction occurs  
Every time that boy meets girl

With healing power so complete  
There is no drug that could compete, no  
But we just can't seem to devise  
Any way to synthesize it

[Repeat CHORUS]

Vitamin L

Has to occur in love like dreams  
And now I know just what he means  
All that had been bothering me  
Has been cleared up completely

All this time, she's all I needed

What a great way to get treated  
Take this advice and you'll feel great  
Even if you're not sick, why wait

[Repeat CHORUS]

Vitamin L, bass

It makes all things well  
Vitamin L

If you could buy  
I'm sure they'd sell Vitamin L  
If you could buy  
I'm sure they'd sell Vitamin L

Vitamin L  
It makes all things well  
Vitamin L  
It makes all things well  
Vitamin L

It makes all things well  
Vitamin L  
It makes all things well  
Vitamin L
