How does it feel to have time on your side
And never worry too much?
Never alone, kicking at stones
As though you're never been touched

Touched by the feeling that nothing is real
It's all an illusion
Wheels in the drive, one of the guys
With nothing to prove

Beautiful girl, how in the world
Could you be suffering so?
Life's lost it's appeal
And maybe I feel a little more than you know

Why should I care
When everyone has their share?
Perhaps, your heart's like my own
You may despair but you're never alone

Long as the shore summons the sea
To hold and to heal
We're borne on our way to bloom and decay

And this is the deal

Can you feel love stopping the wheel?
Beautiful girl, simple and still
Heaven revealed

Watching the water that flows in the river
I've been feeling so sad
Seems like the things that today has to give
Are not as good as I had

Changes are coming
Don't know if I'm ready
Is my head in the clouds
River keep running away from it

Long as the shore summons the sea
To hold and to heal

We're borne on our way to bloom and decay
And this is the deal

Can you feel love stopping the wheel?
Beautiful girl, simple and still
Heaven revealed

Beautiful girl, simple and still
You're heaven revealed
