One and one  
One and one  
One and one  
One and one

One and one  
One and one  
One and one  
One and one

One and one is one I hear  
But it breaks my heart to come so near  
And find division standing in our way

As London burns I lie awake  
And wrestle with this passive state  
But a broken heart is useless in these days

When I close my eyes to trouble  
Baby, I see you  
And now I have the need to double  
Everything I do

So I close my eyes and make a wish  
Yeah, dream a dream for me  
That one and one will someday be free

Oh boy, I know the crucial blow  
They deal us every day  
I feel it too but need for you  
To chase your blues away

But if my heart should come apart  
My love should turn inside  
I'll understand you're just a man  
I'll still be on your side

When I close my eyes to trouble  
Baby, I see you  
(Baby, I see you)  
And now I have the need to double  
Everything I do

(Everything I do)

So I close my eyes and make a wish  
Yeah, dream a dream for me  
That one and one will someday be free

And one  
And one  
And one  
And one

When I close my eyes to trouble  
Baby, I see you  
(Baby, I see you)  
And now I have the need to double  
Everything I do  
(Everything I do)

So I close my eyes and make a wish  
Yeah, dream a dream for me  
If one and one will someday be free

One and one  
One and one  
One and one
