You want to walk on my side  
I'm the devil in disguise  
That's just the way that it goes  
I guess you didn't know

Keep me high, Keep me low  
I don't want to tell you where I've been

You want to fade under my speed  
I'm the one who's in your dreams  
It's the sound that you burn  
I guess you didn't learn

Keep me high, keep me low  
I don't want to tell you where I've been

I used to move with my shadow still  
Now I'm searching for your will  
That's just the way that it goes  
I guess you didn't know  
But every night that I think of you  
With every voice that she brings me  
It's not pain that I'm feeling  
It's just the hate that I fear, I'm fearing

Keep me high, keep me low  
I don't want to tell you where I've been
