[Verse 1:]

When I'm out on the road
Going from show to show
Told my homie Romeo
How much I miss you so
I dont know how much longer it will be
Im missing you, wanting you
And I really want to talk to you
Oh know I left my 2-way at home
Still seating on the charger
Oh know my battery is dead on my cell phone
And I really want to call ya
J-Boog let me use your phone
Cause I gotta call my baby girl back home
Let her know how much she means to me
Cause we gotta be

[Chorus 2x:]

'Cause your my (your my) angel (angel)
Your my (your my) heart girl
'Cause your my everything (your everything I want and
Im wanting)
Girl your my everything (your everything I need and I
want girl)

[Verse 2:]

I got cha on the phone
You said you wish I was home
But then you flip the script
Tryna put me on the wrong
And you think I'm lying when I been trying all day to talk
to you
Jiggling videos and photo shoots
Baby girl dont think that when your calls go by and by I
dont really want to call ya
Dont think about screening my calls while checking my
caller ID tryna dodge ya girl
Trying be all I can be

A young man in this industry
You mean the world to me
You are my everything

[Chorus 2x:]

Your my (your my) angel (angel)
Your my (your my) heart girl
Cause your my everything (your everything I want and
Im wanting)
Girl your my everything (your everything I need and I
want girl)

[Hook:]

Girl
You dont know
Nothing will come between you and me
Girl you dont know
That you will always be
My everything

[Rap:]

Baby girl Im missing you
Cant wait to get home so I can hold you
