You take me to paradise
And I feel as though Iâ€™m goin
out of my mind, cant you see
Every time Iâ€™m with you I feel weak
Even though weâ€™re in a dream, oh I
Canâ€™t last a day without
your touch, your kiss
Gently caressing my body
My body is only for you
Distant love, wish I
knew how I met you
I know I shouldnâ€™t waste
time wonderin
Is it you who yearns when
I touch your skin
So gentle, so gentle, I can feel you
Tell me
Tell me this is no lie
I see you in the reflection
of my eyes
If your not here, please
tell me where

Chorus

I know that youâ€™re out there
(I can feel that you are close
by your here somewhere)
Iâ€™ve been waitin so long for you
(Is life a dream, are things
really what they seem)
When I close my eyes youâ€™re here
(Yo, I wanna hold you if only I could show you)
Dreamings not like reality
(Cause youâ€™re my destiny
girl you know)
Need you too

Is this a curse or am I blessed
I think Iâ€™m going mad
Up in this cold world
without my girl

I visualize her daily because I am feeling incomplete
without my lady
I see things like her image
Lurking in the mirror
Iâ€™m fantasizing, wishing she were right beside me

But realising I am
dreaming its an illusion
So much confusion
Iâ€™m crazy about this lady
You haunt me, I have never met
you but I can swear to god in my dreams I smell and
touch you
I long for you wanna hold
you when I am lonely
Cause in my heart youâ€™re
the only one who knows me
If only I could manifest
your very being I could show
you a part of me
No girl has ever seen
Believe me youâ€™re the only
one in this whole world for me
I know your out there so
baby girl just wait for me

Chorus

I know that youâ€™re out there
(I can feel that you are close
by your here somewhere)
Iâ€™ve been waitin so long for you
(Is life a dream, are things
really what they seem)
When I close my eyes youâ€™re here
(Yo, I wanna hold you if only I could show you)
Dreamings not like reality
(Cause youâ€™re my destiny
girl you know)
Need you too

Bridge

How will I know its you,
so many faces in the world
(Which on belong to you)
Would you pass me by
(If I donâ€™t say hi)
Please leave a clue
(Iâ€™ll come find you and make
our dreams come true)

I won't hesitate nor wonder,
but please don't make
we wait no longer
(If I had my way you'd be
here with me, I know its destiny, coz we we're meant
to be)

Chorus

I know that you're out there
(I can feel that you are close
by your here somewhere)
I've been waitin so long for you
(Is like a dream are things
really what you seem)
When I close my eyes you're here
(Yo, I wanna hold you if only
I could show you)
Dreamings not like reality
(Cause you're my destiny
girl you know)
I Need you too
