[verse 1]

It is another day

Of you trippin out on me

I could retaliate and bring the ghetto out of me

But I'm feeling you

But not the things you do

I would rather set you straight

Then smack you in your face

This is not your ex-relationship

Cause all I gotta say is

[chorus:]

Girl you just don't realize

You gotta figure out I'm not like the other guy

Because I wear saggy jeans, timb boots and don't' lie
like the rest do

You gotta figure out I'm not like the other guys

[verse 2:]

There is no reason for

All these crazy confrontations

Let's set the record straight

Your the only one for me

But tried hard I am

Please just understand

(okay look)

First I gave you up

Then I played the role

Then I feel in love with you girl
[hook:]

Heartfelt

And unselfish

Love

All thoughts

Revolve around you
[j-boog talking]

Um

I mean

I don't understand

I mean

I know what you had and hat you been through

But I'm here and I'm different
[chorus:]

Girl you just don't realize

You gotta figure out I'm not like the other guys

Because I wear saggy jeans, timb boots and don't lie
like the rest do

You gotta figure out I'm not like the other guy
