"Fly Away"

Visit "[Fly Away](#)" on MotoLyrics.com

fever i know you've come to take my love
go away
go away
go away
fever i know your face just like a dove
fly away
fly away
fly away
fever, turn the lights out. take a different road, let us
be.
fever i know your've come to take my love.
go away
go away
go away
fever i know in god i shouldnt trust. he's so far away, so
far away
far away
fever turn the lights out. take a different road, let us
be.
fever, take a different route, travel a different road, let
us be.
fever i know you've come to take my love.
go away
go away
go away
go away
fly away
go away
fly away, oh how low, how low.
