All that's happened in my life  
Has led me to this hour  
I've made my choice to stand  
Before you to challenge history

It's time to seize our destiny  
Events have gone as planned  
Tonight will always be remembered  
The eve of Liberty

Acts of degradation  
Frozen one by one  
I won't forget you again  
I'm not afraid of you this time

I've struggled all my life to overcome  
The pain of all my childhood years  
Pray for me my fiends I cannot bear to lose

Join me in victory  
Our strength will come  
From the hearts of the masses  
The day will be our's my fiends  
We'll take this world for our humanity  
And dignity will be ours  
We'll break these chains  
That bind us to our enemies  
We'll take this world

I remember long ago  
When I held her in my arms  
How I fought the tide of life that night  
How I yearned to be set free

On the beach that stormy night  
I tried to say the words  
To tell her of my love for her  
Instead I said goodbye

But it was so long ago  
All my life to serve the calling that I hear  
Though I buried all my deepest regrets

I remember you now
