"Modern Prophet"

The news came down today
A million lives at stake
One nation strives to make
The suffering go away
And bring on a new age

Modern Prophets
See a new way
All that you know is wrong they say
Modern Prophets are gone tomorrow
Hold on to your dreams

Chinese civil war
Ends in blood and gore
Rights we take for granted
Taken all away
Students burn the flag
First amendment rights
Despite the land that lets
Her children desecrate

Their feelings filled with hate
