Ohh Yeah
All Over and Over
Some little sound
Ohhh

[Dustin]
Why you gon give me back my chain
And you ain't even gon give me the chance to explain
It's so typical
We've been here before
Ain't nothin changed
Why you gon give me back my chain
We just been through this babe
It's just like Groundhog Day
like yesterday
And the day before
And the day before that

[Chorus]
(Girl I bet I know what you bout to say)
You'll say that I'm a big liar
(You bout to say)
You'll say you gettin sick and tired
(And I'm gonna say)
ooo your trippin
Girl I'm outta here
But this is how we play
Baby its okay

Girl I wanna do it all over again
Come on lets do it like we always do
Break up and make up and break up
And then we're making up
Here we go again
Oh girl
Can we argue all over
Get jealous all over
Cuz I like gettin back with you
Baby ooo
Lets do it over and over
All Over and over again

[Patrick]

You always wear that dress I like
On the very same day that we just had a fight
thats so typical
We've been here before
Ain't nothin changed
ohhh
All your girls stay in our biz
It's like they know before we
when we even call it quits
When you throw your fits
I get over it
I can't even get mad

[Chorus]

(Girl I bet I know what you bout to say)
You'll say that I'm a big liar
(You bout to say)
You'll say you gettin sick and tired
(And I'm gonna say)
ooo your trippin
Girl I'm outta here
But this is how we play
Baby its okay
Girl I wanna do it all over again (All Over Again)
Come on lets do it like we always do (we always do)
Break up and make up and break up
And then we're making up (making up)
Here we go again (here we go)
Oh girl (Girl)
Can we argue all over (all over)
Get jealous all over (all over)
Cuz I like gettin back with you (I like gettin back with
you)
Baby ooo (Baby ooo)
Lets do it over and over
Over and over again

[Bryan]

You know I ain't gon leave
We mean too much to me
Even though we go through these changes on the
regular girl
If it was any other girl
I'll be gone like yesterday
since its you I'm gonna stay

[Kelly]

how come everyday you making a fuss
got a young man wantin to cuss (I know, you know)
That I'm feelin real serious

Cuz this love is real serious (serious)
You be rockin the flow
Then you come back for more
back, back
forward, forward then back
And I guess that's how she roll
Ohhhh

[Chorus]

Girl I wanna do it all over again (All over)
Come on lets do it like we always do
Break up and make up and break up (we always do)
And then we're making up (and then we make up)
Here we go again (Here we go, here we go)
Oh gurl (oh)
Can we argue all over (argue all over)
Get jealous all over (all over)
Cuz I like gettin back with you (I like getting back with
you)
Baby ooo
Lets do it over and over
Over and over again
All over and over

(Music fades)

Girl I wanna do it all over again
Come on lets do it like we always do
Break up and make up and break up
