1st verse:
(Dustin)

Once upon a time there was you and me
Everything was how it was supposed to be
I made you smile, I was happy
this is where the story ends
Why'd you have to leave?

(Patrick)

The sun is shining, but seems so dark
It's warm outside but cold in my heart
I'm with my friends but feel alone
I thought it would be easy moving on

Chorus:

(B5)

Everything makes me think of you
I see your face no matter what I do
I could be at the movies, or watching TV
Walking down the street and every girl I see
Just reminds me your not with me
When will I see things differently?
Doesn't matter where I go, No matter what I do
Everything makes me think of you.

2nd Verse:

(Kelly)

Everything is in your favorite color.
Like teddy bears, notebooks, even flowers.
Still got that box of candy I never gave you
Can't make myself throw it away

(Carnell)

I try to see in my daze
I try to eat I can't taste anything
Can't even listen to my favorite song
I think about you, think about you all day long

Chorus:

(B5)

Everything makes me think of you

I see your face no matter what I do
I could be at the movies, or watching TV
Walking down the street and every girl I see
Just reminds me your not with me
When will I see things differently?
Doesn't matter where I go, No matter what I do
Everything makes me think of you.

(Bryan)I can't stand to look up at the clouds
(carnell)I can't even look down at the ground
(patrick)So this may go, then everyone will no
that i can't let you go.

Chorus:

(B5)

Everything makes me think of you (let you go)
I see your face no matter what I do
I could be at the movies (no, no, no, no)
Or watching TV, walking down the street
and every girl I see just reminds me your not with me
When will I see things differently?
Doesn't matter where I go, no matter what I do
Everything makes me think of you.

Everything (everything)
Everything (everything)
I could be at the movies or watching tv
walking down the street and every girl I see
Everything (everything, everything)
Doesn't matter (where I go)
No matter (what I do)
Everything makes me think of you.

Everything makes me think of you
I see your face no matter what I do
I could be at the movies, or watching TV
Walking down the street and every girl I see
Just reminds me your not with me
When will I see things differently?
Doesn't matter where I go, No matter what I do
Everything makes me think of you.
