Dustin:

I sit alone in my room, behind these four walls
Thinkin bout this girl, I met at the mall
Shes was slim(so beautiful) with eyes and all
I made my way to her(i said girl could i call)
(she said yes) I got dressed so fresh, its on
(oh she had my mind blown wishin i could see her)
So i hopped in my whip, turned the radio on
As im on my way they played the number 1 song

Hook:

I better never let her go (you better never let her go)
Cause when she's gone then shes gone for sure
You better never let her go
And if your down for her let her know that

Chorus:

I can, show you what your missin girl
And you are, everything im looking for
Now i know, you really wanna take it slow
Girl i wanna let you know, im never gonna let you go

I can, show you what your missin girl
And you are, everything im searching for
Girl you mean the world to me
An i'll never let you go

Patrick:

I was reminiscing bout the past
When a crush made love much more to have
Tellin her she's sweet as a hersheys kiss
All my life i never met, a girl like this
(And now i) I call her but hang up the phone
I got her on my mind, cant leave it alone
Your workin like a 9 to 5 its on
Look to 106 they play the number 1 song

Hook:

I better never let her go (you better never let her go)
Cause when she's gone then shes gone for sure
You better never let her go
And if your down for her let her know that

I can, show you what your missin girl
And you are, everything im looking for
Now i know, you really wanna take it slow

And you are, everything im searching for(you are)
Girl you mean the world to me
An i'll never let you go

I wanna give you everything you want (and what you
need)
Girl your the truth you got your hooks in me, now cant

I promise your the only one for me
Cuz girl i wanna know,do you feel the same way too?
