Backwards you're walking  
Lady is talking on her knees

Slowly colliding  
Into the brick wall by mistake

All of the tensions disappeared  
I touched her body on the ground

Do you come with special features?  
Do you have a name?  
Do you have an extra spare part?  
Are you wild or tame?

Sick or quite healthy  
Those are questions of my show  
Talk is your weapon

Blame it on nature, on mankind

I can still hate you but I don't  
Stuck in the middle of the road

Do you come with special features?  
Do you have a name?  
Do you have an extra spare part?  
Are you wild or tame?

Would you break by touch of water?  
Do you stand the pain?  
Do you understand the structures?  
Or are you just profane?
