"Look At Me"

Visit "[Look At Me](#)" on MotoLyrics.com

Look at me I fight your media

Hate your godless TV
Yet need it to fight
Right before your eyes
I just rage against
What brings me to life

Look at me I fight your lifestyle

Hate your godless Radio
Yet need it to fight
Right inside your ears
I just rage against

What brings me to life

Look at me I fight your everything

Hate your godless web
Yet need it to fight
Right inside your golden cages
I just rage against
What brings me to life

Look at me
Don't take my importance
Look at me
I take it myself
