

Babii Phantom "Problems"

Visit "[Problems](#)" on MotoLyrics.com

The only thing
right in front of your face
grab on and dont let it
no matter what, dont let it go to waste
ur all i have all i need
whatever we go thru
we go thru as one, as a pair
as together, me and you

chorus:
and if my problems
dont suit ur problems
we'll make the problems go away
and if my problems
face outward toward the world
ill grab them n throw them all away

something happened
once we were standing
were you just about to fall

or was i landing too low?
coz u seemed to kno
everything i didnt want to
figure out for myself u figured
all of it out for me, i guess
you were also the one holdin the trigger...

chorus

shine the light, break the fire
all we have is our desire
so hold onto it like u hold onto life
just let it fall, and break the ice
correct me if im wrong
you are all i wanted all the time
we go as one, as a pair
as together, me and you

chorus
