Wanna be my party boy  
Wanna be my special toy  
Your eyes make me shiver  
And your body makes me jump for joy

Getting far to hot to flirt  
I don't think you need a shirt  
Shut your mouth and get it on  
My patience shorter than my skirt

(So tell me- do I come here often?)

Pina colada boy  
You make the girls go ahh  
And when the sun goes down  
You make my world spin round

Pina colada boy  
You make the girls go ahh  
But when the sun's back high  
Baby I wave bye-bye

P- P- Pina colada

I can see you love the chance  
To be my holiday romance  
I really need another drink  
And I'd like to watch you dance

Pretty eyes and all that Jazz  
Baby let's step on the gas  
You know how the saying goes  
About what happens in Vegas

(You naughty boy - go to my room)

Pina colada boy  
You make the girls go ahh  
And when the sun goes down  
You make my world spin round

Pina colada boy

You make the girls go ahh  
But when the sun's back high  
Baby I wave bye-bye

P- P- Pina colada

You blend some of my juice  
With your cocoon of cream  
Some rum and shake it up  
Tastes like a summer dream

You made me go uh-oh  
But I don't want your ring  
Cuz boy I need you so  
But only for one thing

(So let's do it now)

Pina colada boy  
You make the girls go ahh  
And when the sun goes down  
You make my world spin round

Pina colada boy  
You make the girls go ahh  
But when the sun's back high  
Baby I wave bye-bye
