Baby Cham,

them this week

So you think I get down like that I don't,
Think that you can get me in ya bed you won't,
I guess you got knocked down for the count fool,
Cause that's just not me

Let them know girl

Verse 1

I'm hot so ya feeling me,
I can tell by the way that ya grilling me,
I can tell that you really want my number,
Don't think I don't see you over there boy,
Staring at my bumper,
I know that you're wanting me,
Big bike,
Big car don't impress me much,
Keep looking coz I ain't coming over,
Who cares 'bout the ice that you rock or your new
Range Rover

Oh do what you wanna do,
You can have any man if you wanted to,
If ya hot and ya know ya man's feeling you,
Know ya man's peeling you,
Keep it real with you,
Oh be how ya wanna be,
Hot girls pick and choose who they wanna see,
Represent but they need to be cuddly,
Girls need it badly I give it gladly,
Bad man fi know how fi keep girls calling and balling
and falling and crawling,
Action ain't got time for stalling by midnight legs
