Written by I.a. reid, babyface (1988) Performed by bobby brown
I can't sleep at night I toss and turn
Listen in for the telephone
But when I get your call I'm all choked up
Can't believe you called my home
And as a matter of fact it blows my mind
You would even talk to me
Because a girl like you is like a dream
Come true A real life fantasy
No matter what your friends try to tell you
We were made to fall in love
And we will be together, any kind of weather
It's like that, it's like that, girl
Every little step I take, you will be there
Every little step I make, we'll be together
Every little step I take, you will be there
Every little step I make, we'll be together
I can't think too straight, I'm all confused
You must've put a thing on me
Because there are no words that can explain
I'm living in ecstasy
And you can best believe I've got your back
You never have to feel no pain
Because I dedicate my life for you
You never have to love again
No matter what your friends try to tell you
We were made to fall in love
We'll always be together, any kind of weather
It's like that, it's like that
Hook 2 times
No matter what your friends try to tell you
We were made to fall in love
And we will be together, any kind of weather
It's like that, it's like that
Hook 3 times
