Written by babyface (1996) Performed by Toni Braxton
I'm just a girl that doesn't like the thought of being alone
I need to be loved and held real close
I'm the kind of girl that needs to be caressed and kissed so soft
There's no better way to turn me on
I need a man who's gonna treat me right
I need a man who'll be with me every night
So I've gotta find me a man with sensitive eyes
One who understands
Love is stronger than pride
So I gotta find me a man with a sensitive mind
Not just any man
One of a kind
I'm just a girl that likes a man that knows his right from wrong
One that will keep his loving at home
I'm the kind of girl who likes to please her man the whole night long
But he's gotta please me just as long
I want a man who's gonna treat me right
I need a man who's gonna be with me every night
So I gotta hook
I know what I'm looking for, and I know
He's gotta be wonderful, 'cause I know I am too beautiful, to settle for nothing less
I know what I'm searching for, yes I know
It's someone incredible, don't you know
That I won't give up until I've found the perfect man
So I gotta find me
Gotta find me a guy
So I gotta find me, find me
Find me a man
Not just any man
One of a kind
