[Verse 1]

You can take your Usher CD
I will take my luther with me
You can take Jaheim, as if
I let you take my Pendergrass
You can keep that ghetto chain
Better leave that diamond ring

You might as well get used to no more wearing it You can tell your friends things wont be like they was before

All your flossing all the shopping I was paying for You can act like you ain't sorry now but I no i'm gonna be missed, when it all comes down to this

[Chorus]

We're going outta business
Shutting down the door
Everything's on clearance, closin' up the store
Don't act like you don't hear it, don't act like you don't
know
We're going outta business everything must go

[Verse 2]

You better pay your cable bill Common girl lets be for real You're the one that had to have your Oprah and your Dr. Phil

Don't you touch that sofa bed girl you know I paid for it Can't have you and him on it up there having sex You can tell your friends why not why were not down no more

You can tell them it was not what I was wishing for You can act like your not sorry no more Girl I know i'm gonna be missed when it all comes down to this

[Chorus]

We're going outta business
Shutting down the door
Everything's on clearance, closin' up the store
Don't act like you don't hear it, don't act like you don't

know
We're going outta business everything must go
We're goin' outa business
Counting down the days

Sometimes no conditions In the finally stake

Don't act like you don't hear it

Don't act like you don't know

You can take them stupid lies

Put it were the sun don't shine

Take them to the girlfriend hat will always sit inside your mind

And if you apologize - too late - we're outta time Wen it all comes down it all comes down to this

We're going outta business

Shutting down the door

Everything's on clearance, closin' up the store

Don't act like you don't hear it, don't act like you don't

know

We're going outta business everything must go

We're goin' outa business

Counting down the days

Sometimes no conditions

In the finally stake

Don't act like you don't hear it

Don't act like you don't know
