Calling all cars [REPEAT]

I never thought that  
I could feel this way  
You came around and  
Brought about a change in me

I was a typical guy  
You came along and blew my mind  
You were runnin' fast  
I was runnin' slow  
Everybody said that it would not work  
Love came and set me free  
You were standing there to rescue me  
Love caught it, we thought  
Why can't we be in love, well

Why, it's no crime  
If I'm guilty of love  
Let me do my time  
Why, it's no crime  
Everybody needs love  
And baby (so do I)

You never thought love  
Came so easily  
No doubt about it  
Never in your dreams, no way

You were a typical girl  
You came along and changed my world  
I walk slow  
You walk fast  
Everybody said that it could not last  
Love came inside of me  
Never knew how good our love could be  
Love caught it, we thought  
Why can't we be in love, well

[HOOK]

I've spent half a lifetime  
Waiting for someone  
You say I know it was you  
They don't recommend it  
I don't understand it  
I've been reprimanded  
'Cause I'm in love with you

Calling all cars [REPEAT]

You were a typical girl  
You came along and changed my world  
I walk slow  
You walk fast  
Everybody said that it could not last  
Love came inside of me  
Never knew how good our love could be  
Love caught it, we thought  
Why can't we be in love, well

Why, why

So do I, so do I  
So do I, so do I  
Oh so do I

[HOOK with ad lib]

Why
