I think this is love
Since the first time we met
I already closed my heart in yours

Open your eyes
I'm right next to you
So you just have to embrace me

Look at the twinkling the stars in the sky
You will want to see me again
Because I am already in your heart

*

The clouds that are freely floating
Will be far away in a short time
You will want to run to me sometime

**

I think this is love
I want you to rest in my heart
I don't expect anything else
I just need you that's all.

If I made you troubled sometimes
Tell me anytime
I'll wait so that your heart will change
Please understand me

Lets go together
So that this feeling that we had when we first met
Can go on forever like now

Look at the twinkling stars
I'll be inside of those stars
If you can still come and go and stop
I will always stay by your side
I'll be your strength
Because that is my joy
