I don't know just what to make of this world
My friends are wonderin' tool got some doubt about the state of this world
n what we're gonna do
All I know is you
n the feelin' I feel is the truth
I'm in love with you
n I don't need to figure it out
All I know now is that
I got no doubt about love
Hesitation is out
Now that I got not doubt about love
You've never sure about your place in this world
Or what you need to survive
Some people say that
What it takes in this world
Is constant compromise
But your love's so fine
And I must have done somethin' so right
To be in love with you
And I ain't givin' up what I got
Hook
Can it be
Certainty
Has taken ahold in my life
Imagine my surprise
No doubt big love is arrived
Every day I thank God I'm alive
