I'm liking you too much  
Don't take advantage of my tender heart and  
everything about me  
In giving you my trust  
I'm giving you my love  
So do take care, please be gentle with my heart  
'cause everything I do is 'bout you, baby  
Baby, I don't wanna be apart, oo  
I've been loving you from the start  
Here's my heart, here's my heart  
Everything I do is all about you, baby  
Whatever you do  
Whatever you think  
I look in your eyes  
You don't know how my heart aches  
Whatever you say, whatever could mean  
You're breaking my heart  
I want it all the time, I want it every night  
I can't stop thinking, can't stop thinking about you  
I'm burning with desire, my heart and soul on fire  
So do take care, please be careful with my heart  
Anything you do, I crave it, baby, baby, baby  
I can't get you outta my mind  
Loving you I can't deny you're in my heart  
Deep inside, everything I do is all about you, baby  
Hook  
I maybe a fool for you, baby  
Well, I can't help myself  
Maybe I'm too in love  
What else can I do but go crazy  
For your love, boy, I'd give anything  
Hook 3 times
