We started out as friends Who really loved being together
Never knowing we would find a love to last forever
For after all We were just kids experiencing the joys of puppy love
Yet ever since the day we first touched there was a feeling
And even when I think of you right now I still get a chill up and down my spine
I can't believe the way I feel After all this time I love you (I still love you)
With all my heart and soul Oh darlin' I'll never let you go
It's been like twenty years of love and not one minute longer
And though we have had our ups and downs Our love keeps getting stronger
What's in our hearts, that makes us love the way you do
God keeps blessing me with you For no one ever dreamed that such a love could get much better
We knew deep in our hearts that destiny would keep us together
We will never apart, I can't deny what we feel inside
We'll last thru all time
Hook Let's celebrate the many years of love we've shared together
For no one ever dreamed it would last so long
I cherish every moment with your love
I couldn't be better Here's to the love, that keeps us both so strong
Hook 3 times
