It's not about whose right or whose wrong
Its not about who's weaker or who's strong
Its not about who's innocent or who's fault
It aint really bout that kinda thing at all
Its not about who does it or done it or did it to who
Dont matter if the both of you lose
Its really not bout nothing, excpet for me and you girl

[Chorus]

Its about drama and love and 'lationships
and when the going gets tough you deal with it
and you dont ever, you never walk away from it
you hold on, you be strong
its about drama and trust and making it
if your somebody mess up you take it in
dont let nobody come between you, you just stay with
them
you hold on, and be strong
and hold on, yes you do

[Verse 2]

Its not about the stupid things that we say
We're always saying stupid things anyway
Its not about the secrecy of the lies
Girl everybodys gots a secret to hide
Its not about who was he, who was she, who's creeping
on whom
Wont matter if the both of us lose
Its really not bout nothing, cept for me and you

[Chorus]

Its about drama and love and 'lationships
and when the going gets tough you deal with it
and you dont ever, you never walk away from it
you hold on, you be strong
its about drama and trust and making it
if your somebody mess up you take it in
dont let nobody come between you, you just stay with
them
you hold on, and be strong
hold on

Aint bout your pride
Aint bout yourself
Its bout the two of you, and no one else
Aint bout the hurt
Aint bout the lies
Aint bout the crazy things thats running through your
mind
Its bout the love thats supposed to last and never die

[Chorus (repeat until fade)]

Its about drama and love and 'lationships
and when the going gets tough you deal with it
and you dont ever, you never walk away from it
you hold on, you be strong
its about drama and trust and making it
if your somebody mess up you take it in
dont let nobody come between you, you just stay with
them
you hold on, and be strong
hold on
