"God Must Love U"

Visit "[God Must Love U](#)" on MotoLyrics.com

God must love you, I said to myself
'Cause you are more beautiful than anybody else
God must adore you, it's easy to tell
Must be wonderful to wake up to yourself

And the moment I saw you, had a vibe that's fit to kill
It was then that I knew love was real
On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never saw this happening to me
It's like something just came over me
I never thought that I could feel

Yes, God must love you, He's proud of himself
When he made you girl, he broke the mould for real
There's just something about you that you can't even
help
It's the way you flow, you don't even know
That you got that whip of view

But the moment I first saw you, had your vibe all set to
kill
It was then, that I knew love was real
On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never saw this happening to me
It's like something just came over me, yeah

On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never saw this happening to me
It's like something just came over me
I never thought that I could feel, baby, yeah

Never thought love at first sight could be real
And suddenly I see your face and I get you, baby
And everything I never thought that I could feel, is for
real
Love is real, on the day

Oh, baby, on the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still

And I never saw this happening to me
It's like something just came over me, yeah

On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never saw this happening to me
It's like something just came over me

I never thought that I could feel
No, no, I never thought that I could feel
